

Rebuilding
#BetterTogether

Dallas Builders Association offices sustained catastrophic damage during the winter storm in February when a broken sprinkler pipe caused significant flooding. The entire lower floor was covered in nearly a foot of water and many portions of the ceiling collapsed under the weight of onrushing water.

Much of the building's interior was either destroyed or heavily damaged. This includes files, office equipment and computers. The Association has a long road ahead of it to restore and improve our home. We need your help getting there.
